This can be very confusing to our learners because of the decimal placement. Just remember how many decimal places we are multiplying together. In the first row each problem has only one decimal number with only one decimal place. That means every answer will have only one decimal place!

.2	.2	.2	.2	.2	.2	.2	.2	.2	.2
x .0	x .1	x .2	x .3	x .4	x .5	x .6	x .7	x .8	x .9
.3	.3	.3	.3	.3	.3	.3	.3	.3	.3
