

When adding multiple digit numbers, write the math problem in columns. Since we are introducing this concept it would be a good idea to label each place value. It is easier for students to add when the numbers are stacked in columns (vertical format). Just remember to add two digits (one column) at a time starting with the column at the right (ones) !

$$\begin{array}{r} 21 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 23 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 25 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 27 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 29 \\ + \quad \quad \\ \hline \end{array}$$

$$\begin{array}{r} 31 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 33 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 35 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 37 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 39 \\ + \quad \quad \\ \hline \end{array}$$

$$\begin{array}{r} 41 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 43 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 45 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 47 \\ + \quad \quad \\ \hline \end{array} \quad \begin{array}{r} 49 \\ + \quad \quad \\ \hline \end{array}$$
