

Multiplication is a faster way to add ! We can use addition to transfer into multiplication.

Fill in the missing numbers.

Addition

$$+ = \dots\dots\dots$$

$$+ + = \dots\dots\dots$$

$$+ + + = \dots\dots\dots$$

Multiplication

$$2 \times =$$

$$3 \times =$$

$$4 \times =$$

Addition

$$+ = \underline{\hspace{1cm}}$$

$$+ + = \underline{\hspace{1cm}}$$

$$+ + + = \underline{\hspace{1cm}}$$

Multiplication

$$2 \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$3 \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

Addition

$$+ = \underline{\hspace{1cm}}$$

$$+ + = \underline{\hspace{1cm}}$$

$$+ + + = \underline{\hspace{1cm}}$$

$$+ + + + = \underline{\hspace{1cm}}$$

Multiplication

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

Addition

$$+ + = \underline{\hspace{1cm}}$$

$$+ + + = \underline{\hspace{1cm}}$$

$$+ + + = \underline{\hspace{1cm}}$$

$$+ + = \underline{\hspace{1cm}}$$

Multiplication

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$
